

Health, Safety & Environment Policy

Gulf Extrusions Co. L.L.C. as a leading extruder in the Middle East recognizes its responsibility to integrate Health, Safety and Environmental considerations in all its operations to the highest standards.

We continue to be committed to these principles:

- Comply with local applicable Health, Safety and Environmental legislations and all the other requirements which internally selected and adhere to.
- Prevention of injuries, ill health by providing a safe and healthy work environment for all employees.
- Protect the environment by optimize the use of natural resources, prevention of pollution and minimize environmental impacts.
- Continually improve the effectiveness of the HSE management system.
- Develop a culture which encourages employees to take personal responsibility for HSE.
- Develop and implement an effective Health, Safety and Environmental Management System with compliance with ISO 14001:2004 & OHSAS 18001:2007.
